

TEXT:

Hello, my name is Betsy Lou. I am eight years old and I live in Southern England with my mummy, daddy and my sister who is five years old. At school, I am in year three. The subjects I love are reading, writing, maths and art. I love reading so much and I am a real bookworm. Other things I like outside school are singing, swimming, ballet, jazz dance, and playing piano.

Through this blog, I want to tell people about my life and all of the fun things I do. I also love reading and writing, so I hope to share my stories and poems with you.
